Chairman, Board of Supervisors Mohave County, Arizona.
ATTEST: W. H. WELSH,
Clerk, Board of Supervisors Mohave County, Arizona.

MAY BE DOLLAR SILVER FOR NEXT FIVE YEARS

Newton D. Baker, director of the U. S. mint, has voiced the prediction that silver will stand at one dollar per ounce or better for the next five years, owing to the failure of the mines to respond to the demands of the mints for silver for coinage, and also the increased demands of Europe for silver.

Silver has been gradually growing in demand and price in the open market and many of the large mining corporations have been holding their output intact, awaiting a better market. England, Italy, France and Germany are in dire need of silver and should the metal take a bound upward, as it is almost sure to do, England will be caught and badly squeezed. America cannot again come to the rescue of Europe, nor will it be allowed to do so, even if it was in a position to supply the demand. The people of the United States, Mexico and Canada need every silver dollar that they can get. If the United States was able to coin 200,000,000 ounces of silver into

dollars it would be able to retire about \$250,000,000 interest bearing certificates that are just now quite a burden on the governmental resources.

Through the Back Door

The manager of an "Uncle Tom's Cabin" company intentionally forgot to pay the members of the company their usual salaries—and "skipped" with all the money.

The players, as soon as they discovered the true situation, unleashed the blood-hounds used in the play and sent them on the trail of the missing manager.

The blood-hounds caught up with the manager, but the latter corralled them and formed a Number Two company of "Uncle Tom's Cabin."

ANOTHER AMENDMENT

That "All is fair in love and war" Was long ago conceded true, And long ago some husbands swore That it must read "and marriage too."

THE UNIVERSAL CAR

Every Ford Product a Helper

Now's the time to buy that Ford Car or Ford Truck or Fordson Tractor. Never were higher quality materials woven into these great utilities; never have prices been more reasonable, nor that dependable and excellent "After-Service" so complete.

Machine work is always more precise than hand work. The special tools and machines in our garage are the same as those being used and recommended because of their precision and time-saving qualities, by the Ford Motor Company. Our modern and up-to-the-minute equipment makes it possible for us to do any work on your car, truck or Fordson tractor, a minor adjustment to a complete overhaul. The promptness with which we do the work is a by-product of these specially designed machines; and we charge only the reasonable Ford prices for your work.

If your Ford car isn't running at top-notch efficiency, bring it here to Ford headquarters—that's to us. One of our Ford mechanics will adjust or repair it for you with as little delay as possible. Keep your car in good condition. It's the most economical way.
